Volunteering one year at yap-cfd workcamps will enrich you a lot, you can:

- gain international friendships
- experience interesting projects by supporting them with your talents and work
- learn how to live and work within an international group
- experience diversity and have lot of fun interacting with people from all over the world

About ICJA / yap cfd workcamps

ICJA Freiwilligenaustausch weltweit e.V. was founded as a reconciliation program between the USA and Germany in 1949. Today ICJA organizes volunteer exchange programs all over the world and we have long-standing experience in working with volunteers and partner organizations from over 40 different countries on all continents. Our aim is to facilitate respectful and open interaction between people from different cultures and backgrounds. We understand our exchange programs as educational offers, which allow people to meet at eye level, to work together and to learn from each other.

“yap-cfd workcamps” is part of ICJA and stands for the common values of freedom, solidarity, tolerance and non-discrimination. By organizing peace education activities, workcamps and youth exchanges it offers intercultural and political learning opportunities for young volunteers from different countries as well as social, cultural and economic backgrounds. As part of the peace movement, we want to strengthen the foundations for peaceful communities by enabling the dialogue between young people about the future of our planet as well as fostering their active citizenship and democratic values. For more information please visit our website www.icja.de/content/Workcamps and check out the reports of some of our recent [Erasmus+ youth exchange and training activities](#)
